The Mercy Foundation

RE: Letter of Support for The Mercy Foundation

This letter is written in support of the Mercy Foundation and all of its great deeds for Osceola County community.

The Mercy Foundation provides the following such as homeless and victim services. These services provide doctors and medication to the less fortunate without medical care. The Mercy Foundation works directly with Kissimmee Police Department to help homeless with clothing in the winter and get them to a fresh start in their life. They offer free tax services during tax season for the needy. In addition, the Mercy Foundation holds town halls and seminars with expert lawyers about current issues affecting our community.

The Mercy Foundation operates out of Marydia Community Center and are partnered with Osceola County to provide health care education seminars, tax clinics and other programs. The Mercy Foundation is part of Women Empowerment and operates out of Orlando. Young ladies are trained with Harbour House and help with the Women Empowerment efforts. The Mercy foundation has established 3 clinics, one in Osceola, Orange and Polk County.

For these many reasons, I emphasize the importance of supporting the Mercy Foundation as it is a great benefit to our community in Osceola County.

Sincerely,

A handwritten signature in black ink, appearing to read "Peggy Choudhry", is written over the typed name and title.

Peggy Choudhry
